Zhejiang International New Energy Storage Exhibition 2025. In the context of the rapid development of China's new energy storage industry, many places have identified new energy storage as a key development industry, and the demand for new energy storage will continue to grow, and the market space is broad.

Energy and climate-related policies have been accelerated by both state and federal governments, and for many companies the time feels right to invest in energy storage. This event gathers together investors, developers, IPPs, grid operators, policymakers, utilities, energy buyers, service providers, consultancies and technology providers under one roof.
