

The high energy density of Lithium-ion battery systems stands as a cornerstone in contemporary portable and stationary electrical energy storage. This paradigm shift demands a fresh set of skills and a multidisciplinary approach in engineering and science, ushering in concepts like thermal runaway and propagating circuit board failures. Balancing these challenges, the safety, ...

Pre-Con Energy Storage Integration Council Strategy Meeting During the 2024 conference, several hundred attendees joined a pre-conference strategy meeting hosted by the Energy Storage Integration Council (ESIC). The mission of the ESIC is to advance the deployment and integration of energy storage systems through open, technical collaboration.
