How do I get a shared rooftop solar system?

Your journey to shared rooftop solar with SolShare starts here. Fill out our contact form below and we'll connect you to the right person at Allume. If you are a private flat owner, please contact your local installer for SolShare options. If you're a flat owner, please contact your local installer for SolShare options.

How do I design a solshare Solar System?

When designing a SolShare solar system, one of the most powerful elements is the ability to allocate a specific proportion of the system to each flat. This allows for maximum benefit from the available kWp and maximise SAP score /EPC uplift. You must allocate the proportion of the solar system that is to be associated to each connection.

Can solshare be installed if the building does not have a distribution board?

If the building does not have a multi service distribution board, it is highly likely that the SolShare cannot be installed. Please contact Allume if you believe this to be the case. ONLY a single live cable is required to connect from SolShare to each flats solar point of connection.

How does the solshare work?

The SolShare has a CT for each output connection. These must run from the SolShare to each connected flat and placed anywhere on the live cable, upstream (grid side) from the solar point of supply (POS). The CTs are provided with 10-meter cable lengths and can be extended by up to 100 meter total via 24 AWG gauge cable.

How many single phase outputs does a solshare unit have?

A SolShare unit has 15 single-phase outputs: 5 on L1; 5 on L2; and 5 on L3. Each flat must be on the same phase as the SolShare output phase. For example, if a flat has an L2 supply from the grid, it must connect to an L2 output from the SolShare. There must be at least one connection made to each of L1-1, L2-1, and L3-1.

Can solshare direct power to a single flat?

SolShare can direct all the power generated on one phase to a single flat. This should be considered while designing cabling and switch gear for a SolShare system. SolShare runs a single live, without a neutral to each flat. Care should be taken during design to consider non-ferrous cable protection.

CdTe POWER GLASS is produced by coating 5 layers of semiconductor thin film sequentially on glass substrate to make the glass become a conductor from an insulator and have the function of power generation. The solar power glass is featured by low carbon emission, high power generation, high efficiency, excellent performance under complex ...

Asahi India Glass Ltd (AIS) and Vishakha group have announced a new partnership into solar glass. The agreement is to set up what they say will be India's largest greenfield solar glass plant at Mundra, Gujarat,

with a phase-1 glass manufacturing capacity of up to 3GW of the installable capacity of solar power plants.

Mitrex isn't just about Solar Glass; it's about integrating energy into every aspect of your building. Transforming every surface into a solar window with BIPV technology, our solutions are tailored for diverse architectural needs, all while harnessing the power of the sun. For our glass solutions, seamless integration is paramount.

Garmin Fenix 6X Pro Solar Gris, función de carga solar Power Glass de 1.4 que alargará la autonomía de la batería Cristal Power Glass - Pantalla de 1.4 - Pantalla a color - Garmin Pay - Personaliza tu reloj - Aplicaciones preinstaladas de GPS y deportes - Condiciones físicas - Funciones de conectividad - Hasta 24 días

Roof installation of power generation glass Pan JinGong with Power Generation Glass Chuankai Tgood Industrial Park CNBM Power Generation Glass in State Grid UHV Guangshui Transformer Station In March 2023, CNBM (Chengdu) Optoelectronic Materials Co., Ltd. received the China Industry Award for their innovative glass power generation technology. ...

It is estimated that the solar project could generate up to 57MWac of electricity, which is equivalent to providing enough power to meet the annual electricity needs of approximately 27,726 homes ...

The Solar Photovoltaic Glass Market is expected to reach 27.11 million tons in 2024 and grow at a CAGR of 18.42% to reach 63.13 million tons by 2029. Xinyi Solar Holdings Limited, Flat Glass Group Co., Ltd., AGC Inc., Nippon Sheet Glass Co., Ltd. and Saint-Gobain are the major companies operating in this market.

As compared to a crystalline silicon solar module, a Power Glass CdTe thin film module generates 5-10% more on an average, of electricity a year. Power Glass robust design can handle all kinds of weather conditions. The transparency of Power Glass, can be customised, thereby eliminating the need of using curtains/ vanishing blinds / films, sun ...

Golden Solar, formerly known as Guangdong Golden Glass Technology Co., LTD., has been at the forefront of the industry since its establishment in 1994. Our commitment to excellence was further solidified in 2010 when we successfully listed on the Shenzhen Stock Exchange under the stock code 300093, showcasing our dedication to leadership and innovation.

He noted that a solar company could choose to offer an even higher discount than 10% to entice customers. The shared solar legislation caps the size of each participating solar facility at 5 megawatts. Examples include a ...

Is Titan Solar Power a good company to work for? Titan Solar Power has an overall rating of 2.7 out of 5, based on over 111 reviews left anonymously by employees. 29% of employees would recommend working at Titan Solar Power to a friend and 23% have a positive outlook for the business. This rating has decreased by

ClearVue has also signed a distributor in Sao-Paolo, is supplying its glass to a greenhouse project for a winery in Japan and launched the world's first totally clear solar glass greenhouse on ...

About AGCGlass Europe, a European leader in flat glass. AGC Glass Europe produces, processes and markets flat glass for the construction industry (external glazing and interior decoration), car manufacture and other industrial sectors (transport, solar power and high-tech). It is the European branch of AGC, a world leader in flat glass.

From my team leader all the way up the chain to Seth and Sean they give you the tools to succeed in life. The best thing about this company is we're all a team. I've never been apart of such a team before where at the drop of a hat a CEO or a colleague would motivate you or help you the way this company has, and just to clarify I played professional hockey for 5 years.
