

Berne energy storage project tender announcement

Which solar-plus-storage projects were bidding in Germany's latest innovation auction?

All the bidding projects from Germany's latest innovative auction were a combination of solar with energy storage. Image: Convergent Energy + Power. Germany's latest innovation auction has awarded contracts to 32 solar-plus-storage projects with a cumulative capacity of 408MW.

Can storage access innovation tenders?

The revenue opportunities for storage are there. Unfortunately, the current design of the innovation tender does not allow storage to access them. The traditional solution would be to further increase the innovation tender premium cap to a price level that fully recognizes the increased system costs.

Is Germany's innovation tender at a crossroads?

Germany's innovation tender is at a crossroads. While solar auctions are booming in Germany, their restrictive design has led to lower volumes of co-located solar and storage projects, limiting their economic benefit.

Will Germany be able to develop distributed energy storage systems by 2028?

Through the innovation tenders, it plans to award contracts for up to 4 GWh to developers of distributed energy storage systems by 2028. The current energy crisis brought the need for smart integration of renewables into renewed focus with the build-out of green generation booming in Germany.

What's happening with solar & storage projects?

A double-header of large-scale solar and storage project news from Arizona, US, with PPAs between Recurrent Energy and utility APS, and developer Avantus selling a co-located project to D. E. Shaw. The latest Innovation Tender in Germany has concluded, with 32 solar-plus-storage projects totalling 408MW awarded contracts.

Why did the innovation tender regain momentum after two weak rounds?

Klaus Mueller, president of the Federal Network Agency commented: "After two weak rounds, the innovation tender has regained momentum. The almost double oversubscription demonstrates the dynamic potential of renewables. Now it is important to maintain the current level of project developments."

1 ?· Testing to start on 100 MWh sand-based thermal battery in Finland Finnish startup Polar Night Energy is building an industrial-scale thermal energy storage system in southern Finland. The 100-hour, sand-based storage ...

The list of winners in Greece's maiden tender for standalone battery energy storage system (BESS) projects includes seven companies with 12 proposals, Energy press reports.. The awarded projects have secured in full the 400 MW capacity on offer. According to the report, energy group Helleniq Energy, formerly Hellenic

The four projects offered in the tender include the 500-MW Al-Muwyah and 500-MW Haden battery energy storage projects in Makkah province, the 500-MW Al-Khushaybi project in Al-Qassim province and the 500-MW Al-Kahafa project in Hail province. All four batteries will have a storage period of four hours.

As previously reported by Energy-Storage.news, the two projects will be in Kiisa in the Saku Rural municipality and Arukylä in the Raasiku Rural municipality and will provide emergency reserve power. Kiisa is the location of an emergency power plant operated by TSO Elering. The battery energy storage park and its substation will be connected to the electricity ...

The tender calls for the procurement of five energy storage systems targeting a total of 616 MW/2,464 MWh. With bids due by July 31, 2024, the projects will be situated at five pre-selected substation sites identified by South African energy company Eskom. The sites include the Harvard, Leander, Theseus, Everest and Merapi substations in the ...

CALGARY, Alberta, Oct. 09, 2024 (GLOBE NEWSWIRE) -- News Release - TC Energy Corporation (TSX, NYSE: TRP) ("TC Energy") today announced that TransCanada PipeLines Limited (the "Company"), a wholly-owned subsidiary of TC Energy, has released (i) the results of its previously announced seven separate offers (the "Offers") to purchase for cash the ...

Polish state-owned energy company PGE Group announced a tender for the construction of a battery energy storage facility in ?arnowiec, which is likely to become the nation's largest once completed. ... The company's stated goal is to build a 5 GW portfolio of renewable energy and storage projects in Europe by 2030, via DRI, with up to 1 GW ...
