

Exactly. There's rarely a reason to really bank much power at all unless your generators can't keep up with peak demands. Or to enable you to turn off generators for a while. And then having a few million in reserve is likely sufficient. Filling a tier 8 is just a fun side project. Not anything anyone actually does out of necessity.

12V Portable Power-Hub Part No. PH125 RRP \$599.00 AUD Inc GST Show NZ Price. Power-Hub turns your battery into a versatile user friendly option for powering and charging a wide range of accessories and appliances while you are off the grid.
