Are lithium-ion batteries a good energy storage solution?

There are different energy storage solutions available today, but lithium-ion batteries are currently the technology of choice due to their cost-effectiveness and high efficiency. Battery Energy Storage Systems, or BESS, are rechargeable batteries that can store energy from different sources and discharge it when needed.

Who can benefit from Bess energy storage solutions?

From renewable energy producers, conventional thermal power plant operators and grid operators to industrial electricity consumers, and offshore drilling platforms or vessels, BESS offer highly efficient and cost-effective energy storage solutions.
