

Can I put a fan in the locker

How do you put a fan in a room?

The fan can force the cooler air to go where you want it to go. The ceiling is the best place to put a fan. The best is to place the fan in such a way that it faces the opposite wall from where most of the activity takes place in the room. With the fan blowing in this way it will drive the air to the surface.

Can you put a fan on the floor?

Similarly, a fan on the floor that is blocked by a couch or table won't be as helpful as one that has a clear pathway to push out air. One thing that can be in front of a fan is a shallow pan of ice, to produce some cold air that your fan can pick up and push out (a DIY air conditioner, of sorts).

Why do you need a fan in a cold room?

But although cold air is heavier than warm air, the cold air is still relatively light and can easily be influenced and moved by outside sources. If you place and activate a fan correctly in such a room, the fan will disrupt that balance. The fan can force the cooler air to go where you want it to go. The ceiling is the best place to put a fan.

Can you put a fan in a small room?

For smaller spaces, like bedrooms, you can use a smaller fan. Where to place the fan in a room for maximum cooling. It's not enough to stick a big fan in a big room and a small fan in a small room, though--you also need to find the perfect placement.

How do I choose a fan?

Always remember, the place where you want to place your fan will influence the choice of fan that you are going to purchase. According to basic science, cold air is naturally heavier than warm air. This means that cold air will sink to the area near the floor and the hot air will occupy the higher space in the room.

What should be in front of a fan?

One thing that can be in front of a fan is a shallow pan of ice, to produce some cold air that your fan can pick up and push out (a DIY air conditioner, of sorts). If you only have one fan or you want to use a single fan to circulate air in multiple rooms, your placement strategy will be a little different.

Thanks for that - by top trim I'm more talking leather and a host of other odds and ends you get w/ the ZR2. I'd be happier with leatherette or vinyl seats, don't care about body color door handles and bumpers actually prefer chrome bumper, rather get the simplest smallest wheels I can to put higher profile real off road tires on it for the same final diameter (one thing I ...
