

Which airport has the largest runway in Cape Verde?

Amílcar Cabral International Airport, located on Sal Island, has the largest runway in Cape Verde. With a length of 3,000m, a width of 45m and a capacity to receive seven large aircraft, Amílcar Cabral International Airport is considered the alternate airport for NASA Space Shuttles.

What are Cape Verde's transport priorities?

Cape Verde's Prime Minister has outlined the government's transport priorities, including revising the legal and regulatory frameworks for civil aviation, promoting low-cost operations, and concessioning and managing airports. The government aims to unify the domestic market and connect the country with the rest of the world.

Where is Cabo Verde Airport?

It is located two km west-southwest from Espargos on Sal Island. Sal is the main hub for the national airline, Cabo Verde Airlines; and serves as a base for carrier Cabo Verde Express. This airport was also one of NASA's locations for a facility to handle the Space Shuttle after reentering from orbit.

Will Cape Verde connect to the world as air services resume?

Cape Verdean Prime Minister wants to connect the country to the world as air services resume. The aviation regulatory regime of Cape Verde has been scrutinised and its revision will be a major plank of the new order. Opportunities should arise for fly-cruise vacations as a maritime terminal is built.

Will Cape Verde's airports be privatised by a concession?

CAPA has frequently commented on the prospects for the privatisation of Cape Verde's airports by way of concession. In an article in Apr-2019 CAPA reported that the government was seeking concessionaires for its airports. Presumably that process was simply delayed by the pandemic.

What are Cabo Verde's transport priorities?

Cabo Verde's Prime Minister, Ulisses Correia e Silva, has outlined the government's transport priorities to "unify" the domestic market, which is spread across 10 islands, and to "connect the country with the rest of the world." The government intends to implement the following air transport initiatives:
