Every conversation about the best energy ETFs to buy rightfully should begin with the Energy Select Sector SPDR Fund (XLE, \$89.89) - the largest such exchange-traded fund on the market by a country mile.

Which energy storage stocks are a good investment?

Albemarle is the top holding, followed by Tesla, so if you can't decide from the previous stocks, this fund is a good one-stop investment to play the pending energy storage boom. With more than \$1 billion under management and about 60 components, this First Trust fund is another interesting and diversified way to play energy storage.

Should you invest in green energy ETFs?

Many ETFs focus on clean energy these days, given the amount of money flowing into the sector. Some take a broad approach by investing across the entire industry, while others focus on a single aspect of green energy investing. The different approaches give investors lots of ways to use ETFs to invest in clean energy.

Should you invest in energy stocks & exchange-traded funds?

Energy stocks and exchange-traded funds (ETFs) have been a popular bet so far this year. While the sector is not the best performer - that distinction goes to communication services stocks - the Energy Select Sector SPDR Fund (XLE) has delivered a healthy total return (price plus dividends) of 8.1%, driving numerous attached energy ETFs higher.
