

What is the European Association for storage of Energy (EASE)?

Join us EASE The European Association for Storage of Energy (EASE) is a diverse community of members that unite their efforts to promote the entire energy storage value chain, which is a fundamental link to a decarbonised energy system.

What is ease?

What is EASE ? The European Association for Storage of Energy(EASE) is the voice of the energy storage community,actively promoting the use of energy storage in Europe and worldwide. energy system with respect to European energy and climate policy.

How does ease support the deployment of energy storage?

EASE supports the deployment of energy storage to support the cost-effective transition to a resilient,climate-neutral,and secure energy system. EASE,located in Brussels,is the leading member-supported association representing organisations active across the entire energy storage value chain.

What does ease do about energy storage?

Mainstream energy storage in the European Commission's implementation of the REPowerEU action plan and in the ongoing review of the Electricity Market Design. EASE has responded to the European Commission's Public Consultation on 'Renewable Energy Projects - Permit-Granting Processes & Power Purchase Agreements .

What is ASE & how does it work?

EASE seeks to build a European platform for sharing and disseminating energy storage-related information and supports the transition towards a sustainable, flexible and stable energy system in Europe.

What does the European Commission have to do with energy storage?

A clear political commitmentfrom the European Commission on an energy storage strategy including energy storage targets replicating in scope and ambition the Hydrogen strategy.

"The new Renewable Energy Directive draft is bound to positively impact the energy storage industry as a whole by unlocking several projects and speeding up facilities" development all across the EU," EASE said in a statement sent to media including Energy-Storage.news. "If the European Union follows this path, the decarbonisation of ...

The EASE Secretariat prepared an analysis the revision of the Renewable Energy Directive (RED III and RED III.5), which entered into force on 20 November 2023 ... EASE, together with the European Energy Research Alliance, will be part of the Batteries Europe's consortium coordinated by InnoEnergy. ... European Association for Storage of Energy Avenue Adolphe Lacombel 59/8 1030 Brussels. tel. +32.2.743.29.82. info@ease-storage . contact us; become a member;

The EASE Task Force on Multi-Services Business Cases for Energy Storage has prepared a report looking at the key role of energy storage as a Local Flexibility provider. This paper gives an overview of existing short-term local flexibility schemes in Europe today including Active-network management (ANM) and other flexibility services and their ...

From 19 to 21 November 2014, EASE organised the first Energy Storage Global Conference in the Cercle National des Armées in Paris, together with ESA and ATEE-CSE (respectively the American and French Energy Storage Association), DG Joint Research Centre and DG Energy of the European Commission and Sandia National Laboratories.

Trade association EASE has urged policymakers to recognise the vital role energy storage can play in solving energy sector challenges as European Union (EU) elections take place. With EU elections underway from 6-9 June, EASE--the European Association for Storage of Energy--sent out a media alert regarding a "manifesto" it published in ...

EASE and LCP-Delta are pleased to announce the publication of the eighth edition of the European Market Monitor on Energy Storage (EMMES). The Market Monitor is an interactive database that tracks over 3,000 energy storage projects. With information on assets in over 29 countries, it is the largest and most detailed archive of European storage. The database is ...

EASE and LCP-Delta are pleased to announce the publication of the eighth edition of the European Market Monitor on Energy Storage (EMMES). The Market Monitor is an interactive database that tracks over 3,000 energy storage projects. With information on assets in over 29 countries, it is the largest and most detailed archive of European storage.

The European Commission revealed a set of dossiers that cover a variety of sectors where energy storage can be a key player. EASE has been working closely with the Commission and other stakeholders to recommend apt frameworks that would empower energy storage to provide support to decarbonisation. ... European Association for Storage of Energy ...

The European Association for Storage of Energy (EASE) is the voice of the energy storage community, actively promoting the use of energy storage in Europe and worldwide. It actively supports the deployment of energy storage as an indispensable instrument within the framework of the European energy and climate policy to deliver services to, and ...

DAY 1 - TUESDAY 15 OCTOBER - POLICY . 1.1 - WELCOME AND OPENING. David Post, President, European Association for Storage of Energy (EASE) - Welcome and opening; 1.3 - ENERGY STORAGE AND SUPPORT SCHEMES: "THE NEW NORMAL"? In 2023 and 2024, several energy storage support schemes have been deployed ...

The European Association for Storage of Energy (EASE) is the voice of the energy storage community, actively promoting the use of energy storage in Europe and worldwide. EASE actively supports the deployment of energy storage as an indispensable instrument to improve the flexibility of and deliver services to the ...

The European Association for Storage of Energy (EASE) is glad to extend a warm welcome to its newest member Aarhus University - who joined EASE in February 2020. 10.10.2024 / ... On 18 June 2021, EASE - the European Association for Storage of Energy, together with 12 national energy storage associations* active across Europe, wrote an open ...

According to data from the European Energy Storage Association (EASE), new energy storage installations in Europe reached approximately 4.5GW in 2022. Among these, utility-scale ESS installations accounted for 2GW, representing 44% of the total power. EASE predicts that in 2023, new European energy storage installations will surpass 6GW, with ...

According to data from the European Energy Storage Association (EASE), total installations soared to 13.5GWh in 2023, marking a staggering 93% increase compared to the previous year. Particularly noteworthy was the surge in residential battery storage, which reached 9.5GWh, a remarkable 109% year-on-year rise, constituting 70% of the total ...

European Association for Storage of Energy menu. About us Energy Storage Publications EU Projects News Events Contact us. member login. Shaping the future of the energy system ... EASE has submitted a technical contribution to the European Chemicals Agency's Public Consultation on the Annex XV Restriction Report for PFAS. In January 2023, a ...
