

# Extended pole to wipe the photovoltaic panel mop

The Prasham Greens Panel Cleaning Mop comes with an extending pole which makes it easy to use. The telescopic pole can be extended from 0-1 meter and this makes it easier to reach all areas of the solar panel. The wet/dry mop is ideal for cleaning solar panels because it allows you to clean both dry and wet surfaces.

Finally, wipe the solar panel with a clean, damp cloth to remove any soap residue. How to clean flexible solar panels. Flexible solar panels are becoming more and more popular. They are made from layers of thin films of photovoltaic (PV) material, which makes them more lightweight and much thinner than traditional solar panels. You might notice ...

To address the common problem of dust, sand, bird droppings and other accumulations on Solar Panels of any size installed on Rooftop or Ground Mounted Projects, we have created a revolutionary Solar Cleaning Brush & Mop System that has an input attachment to water hose / pipes and can extend upto 12 feet via the pole attached to it which makes it easy to reach the ...
