George Cove, as profiled in The Technical World Magazine, June 1909 Patent filed by George Cove, for "thermo electric battery and apparatus" filed in 1905 Canadian Patent 100247, "Tide Power System". George Cove was a Canadian inventor, known primarily for early solar electric generation equipment.

"Solar farms will become thunderstorm and tornado incubators and magnets," says the text of a December 25, 2023 Facebook post.. The post points to Canada's largest solar energy farms in the province of Alberta, claiming that the renewable source of power radiates the majority of the heat from the sun -- raising the temperature and creating extreme weather ...

Using the assumption that the solar panel is approximately 162 x 98 centimetres in size, 1.59m<sup>2</sup> x 9 equals 14.31m<sup>2</sup>. Solar panels can typically be installed on a roof or in a backyard for houses or businesses. To optimise the amount of sunshine that falls on the solar panels, they should preferably be positioned facing north.
