# Interior display of energy storage cabinet

The major issue to the application of DR in display cabinets is the fast increase of the product and air temperature during these periods. Thermal energy storage TES technology by phase change materials (PCM) that has been developed and used for heat preservation in building [7], [8], [9] could be used in display cabinets to limit the temperature rise during DR.

Refrigerated display cabinets are the main energy consumers in supermarkets. Cold thermal energy storage (CTES) using phase change materials (PCM) can significantly reduce temperature variations ...

The storage cabinet is a stylish way to stay on top of your organization. The rustic barn-style design and sleek tapered feet give the look of an old weathered cabinet but the sturdy laminated particleboard and MDF make this cabinet the perfect piece to house your home office supplies, extra linens, seasonal clothing, non-perishable food, and more.

On April 20, 2024, YouNatural shines at the exhibition in Japan. During the exhibition, YouNatural displayed lithium battery products such as solar energy storage systems, industrial energy storage systems, commercial energy storage systems, and portable power supplies.
