

Jidong cement energy storage project

Will China's cement industry open more grinding plants?

The cement producer also opened seven grinding plants at home in China during the reporting period. It's not there yet but it will mark a serious tipping point when the company starts to open more plants outside of China than within it. With the government still pushing for production capacity reduction it can only be a matter of time.

Where did cement production increase in China?

Cement production increased by above 20% in Jilin, Shanxi, Shandong, Tibet and Heilongjiang and by over 10% in Hebei, Gansu, Tianjin, and Liaoning. However, it fell in Hainan, Beijing, Qinghai, Guizhou, Guangxi, Hunan, Guangdong and Ningxia.

Could electrified cement make energy storage more affordable?

By offering a cheaper alternative to more expensive batteries, electrified cement could also make storing renewable power more affordable for developing countries, says Admir Masic, a chemist at MIT and a co-author of a study. "This puts us into a new space for energy storage at prices accessible anywhere in the world."

Could carbon black cement store 10 kilowatt-hours of energy?

If carbon black cement was used to make a 45-cubic-meter volume of concrete--roughly the amount used in the foundation of a standard home-- it could store 10 kilowatt-hours of energy, enough to power an average household for a day, the team reports today in the Proceedings of the National Academy of Sciences.

South Africa: The South African Mamba Cement project, jointly funded by China's Jidong Development Group, the China-Africa Development Fund and a South African cement company, inked a deal regarding financing on 20 November 2013. The project, with an investment of US\$220m, is situated in Limpopo Province, South Africa. The capital fund of the ...

China: Tangshan Jidong Cement plans to acquire about 108.48 million additional shares in Jilin Yatai Group for US\$60.3m, at US\$0.56/share. After that, Jidong Cement will hold less than a 5% stake in Jilin Yatai. Jidong Cement said that the capital source of the external investment was a self-owned one and that the deal would not affect its 2014 operations.

China: BBMG has sold its 49% stake in Beijing BBMG Mangrove to Jidong Cement for US\$242m. Beijing BBMG Mangrove is principally engaged in the collection, storage and processing of poisonous and hazardous wastes.
