The heightened focus on energy storage is driven by the need for a reliable energy supply amidst frequent power outages and grid failures. As Lebanon faces a chronic electricity shortage, the integration of energy storage systems has become paramount. These systems ensure a steady supply of electricity,

The US Department of Energy is on a roll when it comes to backing the US domestic battery industry. In July, the agency"s Loan Programs Office announced a conditional commitment of up to \$1.2 billion for a direct loan to battery separator, extruder, and engineering services company ENTEK to finance a lithium-ion battery separator facility in Indiana.
