Billund, March 1st, 2023: After having installed Denmark's largest roof-mounted solar farm at its headquarters in Billund, Denmark in 2019, the LEGO Group today unveils that it hopes to build a new 80-100 MW solar park. The ambition is to cover the company's total energy consumption in Billund, equivalent to powering around 20,000 Danish homes a year.

I have both solar and wind power in my neighbourhood and love walking there, there are always sheep grazing under the solar farm behind my house and I find the wind turbines absolutely fascinating from a technical point of view. ... I had a lot of fun designing it and hope or think that something like this could one day become a real Lego set ...
