I also posted on: Install IVIC 6D - CT200h - Club Lexus Forums **This is awesome. I connected my win7 laptop to it and it displayed just fine on the CT200h NAV screen. I highly recommend this to anyone that wants to use their screen to hook up cell phones, a computer, A/V source, or any HDMI source.

Just adding to the knowledge pool here about an issue I had and solved. Last month the info center in the gauge cluster told warned my key fob battery was funning low. the next day I went on a 5h road trip. towards the end of the road trip my gauge cluster lit up with every warning light in connection to brakes and traction control, and the cruise control stopped ...

The Lexus CT 200h has been engineered to perform in two different driving "moods", Relaxing or Dynamic, supported by four selectable driving modes: NORMAL, EV, ECO and SPORT. From start-up and at speeds less the 28mph, CT 200h automatically operates in EV mode; the driver can also select EV mode manually.
