Solar backup generators offer a greener, renewable and more reliable solution to all of these problems.. Solar generators are quiet, lack any harmful fumes and exhaust, and are completely renewable.With a handful of well-placed solar panels, you can provide a FREE supply of backup power for your home.. Today, solar home backup power is within reach of everyone.

Solar generators are used as a backup power supply both indoors and outdoors. 500 watt solar generators are portable, compact, and can usually be charged via electrical ports, carports, and solar panels. Most units do not come with solar panels, and these will have to be purchased separately. A 500-watt solar generator can easily power:
