

LONGi is committed to building the world's most valuable solar energy technology company. It continues to focus on energy innovation to form the "green electricity + Green hydrogen" service capability supporting global zero carbon development.

The company added that the modules will be used in a project that is expected to be under construction in 2024 and operational in 2025. Mirel Jarnea, sales manager of Romania at LONGi, said the ...

Wuxi, China, October 8th, 2024 - LONGi Hydrogen has successfully shipped four sets of 1000Nm³/h high-current-density medium-pressure alkaline electrolyzer equipment for the first green ammonia pilot project in Uzbekistan.. The first phase, a 3,000-tonne green ammonia pilot project, has achieved cooperation between ACWA Power, POWERCHINA Huadong ...

Speech by Mr. Li Zhenguo, President of LONGi Group. The launch of Germany's Renewable Energy Act or EEG (German: Erneuerbare-Energien-Gesetz) in 2004 opened the door for renewable photovoltaic energy and contributed substantially to the development of the global photovoltaic industry. Cumulative photovoltaic installations in ...

Munich, June 15 th 2023 - LONGi Hydrogen, the world's leading large-scale electrolyzer and green hydrogen production solution provider, and Vision Grid Energy, a leading engineering, developer, owner and operator of vertically integrated green hydrogen production facilities and innovative energy technology company, are proud to announce the signing of a ...

Dalian (China) 27th June -- From June 25th to 27th, the 15th Annual Meeting of the New Champions, also known as the Summer Davos, was held in Dalian, China. Premier Li Qiang attended the opening ceremony and delivered a speech. Xie Tian, General Manager of LONGi's Strategic Management Center, was invited to participate and share insights at the ...

LonGi, Jinko and Risen Energy are vying to build factories in Malaysia ... the first phase of the 2GW battery module project has been successfully put into production, and focuses on PERC technology, launching three products of 550W, 600W and 660W. ... energy storage, solar PV module. 16GW! Yingfa and LONGi's HPBC Cell Project Settles in Yibin ...

Xi'an (CHINA), 28th December 2023 - LONGi, a global leader in solar technology, announces today that has signed a 576 MW sales agreement with Nofar Energy Romania, implementing the latest generation of its high efficiency modules. This collaboration marks a pivotal moment for the company's ventures in Romania, signaling a significant ...

Longi energy storage project

MANILA, Philippines, Aug. 16, 2024 /PRNewswire/ -- Recently, LONGi has signed an order for a 600MW Hi-MO 7 ground power plant project with ABOITIZ POWER, which is also the largest single-unit order in the Philippines! It will strongly support the energy transformation of ABOITIZ, and also make an important contribution to the green and sustainable development of the ...

LONGi R& D Centers. LONGi has three R& D centers for wafers, cells, and modules and certified as national enterprise technology centers. We have established strategic partnerships with research institutes such as the University of New South Wales and the State Key Laboratory of Silicon Materials of Zhejiang University to strengthen cooperation and promote technology ...

LONGi hydrogen wins bid for world's largest green ammonia demonstration project. Jilin Electric Power Co., Ltd. announced that LONGi Hydrogen Energy won the tender for the "Da'an Wind and Solar Green Hydrogen Synthesis Ammonia Integration Demonstration" project to a total of 15 sets of 1000Nm³/h electrolytic water hydrogen production system.

Given the incorporation of the world's largest energy storage project currently under construction, it will have significant demonstration value once completed, serving as an important reference for future smart energy projects. LONGi VP Dennis She addressed those present at the event, expressing his appreciation to all partners in the ...

LONGi and energy utility firm Naturgy have signed a new module shipment agreement for Naturgy's 2024 solar projects in Spain. ... leader LONGi and energy utility firm Naturgy have signed a new module shipment agreement for Naturgy's 2024 solar projects in Spain. LONGi will deliver just over one million modules from its Hi-MO 5 series, with ...

A solar alliance of LONGi, one of the world's largest solar technology companies, and Senergia, a leading Swedish wholesaler of solar energy, teamed up to support the Non-profit "Project Vita" by donating a solar-powered freshwater system for a maternity clinic in the village of Linga Linga in Mozambique. After constructing a water tower and installing LONGi solar ...

With PV as the main generation source, a complementary power supply system consisting of wind, hydro, thermal and other power types can be integrated with battery energy storage and pumped storage, resulting in a more reliable, sustainable and stable supply of green power.

Xi'an, China, Aug 3, 2023 - The inaugural ceremony of the China Railway Express (Xi'an - Tashkent) freight train for exporting LONGi's PV modules to buttress Shaanxi-Uzbekistan economic and trade cooperation was successfully held at Xi'an. With a clear train whistle, "Chang'an", the freight train loaded with 20MW PV modules (first batch of products for the ...
