

Luxembourg city energy storage subsidy 10 million

The European Commission has given the go-ahead to a EUR150 million (US\$160 million) state aid scheme for renewable energy and energy storage in Slovenia. The executive arm of the European Union (EU) approved the direct grant programme under the State Aid Temporary Crisis and Transition Framework, adopted in March this year to support sectors ...

In the context of China's new power system, various regions have implemented policies mandating the integration of new energy sources with energy storage, while also introducing subsidies to alleviate project cost pressures. Currently, there is a lack of subsidy analysis for photovoltaic energy storage integration projects. In ... learn more

German storage system proves batteries "profitable without subsidy" ... built the EUR22 million (US\$24.58 million) Cremzow storage system to offer primary control energy services and help stabilise the German grid. The project, Enel's first battery in Germany, was first reported as in development by Energy-Storage.news in February last year ...

The Photovoltaics on the Roof program can boost over 100 MWh of residential energy storage demand, as InfoLink estimates based on an average PV system power of 7 kW, an average energy storage system capacity of 8 kWh, and a total budget of EUR 200 million. EUR 200 million seems attractive enough to spur more energy storage demand.

The minister also emphasised that, according to an estimate by EurObserv'ER this year, Luxembourg is in the seventh position in Europe concerning solar energy watt produced pro capita in 2022, with 491.2, slightly above the EU total (437.4). The development of solar energy production has grown steadily since 2018 in Luxembourg.

Eurostat figures show that 11.7% of Luxembourg's energy came from renewable sources in 2020. The government want to increase this to 25% by 2030. ... In Luxembourg City, subsidies promoting sustainability include an additional 50% of the amount allocated by Klimabonus (the state), for installations that improve or promote energy efficiency ...
