What is solar support?

Solar Support is the specialty engineering solutions firm boldly leading the industry through the next generation of restoration and recovery solutions for aging PV assets. Our community of solar experts are a solutions incubator for some of the most difficult and risky industry-leading projects.

Why should you work with solar support?

By working with us, we are uplifting the renewable industry together. Solar Support is the specialty engineering solutions firm boldly leading the industry through the next generation of restoration and recovery solutions for aging PV assets.

Does community management influence household adoption of rooftop solar photovoltaics in rural China?

This paper examines inequality in household adoption of rooftop solar photovoltaics in rural China through a qualitative study of three villages. The Chinese government promotes distributed solar to drive low-carbon development. However, community management and China's institutional system influence unequal access.

Is solar support completing a 1 MW DC expansion?

Solar Support has completed a 1 MW dc expansion of Longroad Energy's 11 MW dc Lea solar project in Lea, New Mexico. "We commend the Solar Support team on the successful completion of a challenging project," said Meghan Semiao (McIver), Director, Asset Management, at Longroad Energy.

How many households in Jiangsu have a rooftop PV system?

For example, Village Z in Jiangsu Province has 32 households. In 2017, the local power company planned free rooftop PV installation for 25 households, but only 23 were ultimately installed. Of the 9 non-adopters, 2 lacked suitable roofs, while others declined over roof damage or absentee concerns.

Can a village adopt a solar power system?

Usually, only about 30% of households can adopt PV. To increase that percentage, the village would need to expand transformer capacity. The costs of that expansion get divided up and paid by later adopters. This raises their construction costs and creates an obstacle to adoption. It is another form of injustice.

**Technical Support Request Form** If you have purchased a product from Signature Solar one of our customer care features is USA Based, In-House Technical Support. At any point after your purchase you find yourself encountering a technical issue, please reach out to Signature Solar with your order number ready.

Solar Support is an Equal Opportunity Employer and fully complies with equal employment laws.
