The Canadian Solar mono panel is a high-efficiency module designed for residential and commercial solar systems. The panel has a power output of 460watts, which means it can generate a large amount of electricity from a relatively small surface area.

Our team ensures your photovoltaic projects are constructed cost effectively, operate flawlessly and can provide regular operation and maintenance for a most optimal power generation. Click and visit the website of Recurrent Energy, a subsidiary of Canadian Solar Inc., to learn more about our solar plant development team. In-house solar experts
