Photovoltaic flexible bracket is an emerging photovoltaic installation system, which is characterized by its flexibility and adaptability. Compared with traditional fixed photovoltaic brackets, flexible photovoltaic brackets can be flexibly adjusted according to terrain, lighting conditions, seasonal changes and other factors to maximize the power generation efficiency of ...

???: ???, ???, ???, ???, ??? Abstract: In order to study the mechanical properties of the fixed photovoltaic bracket and its failure under wind load, the full-scale photovoltaic bracket specimen was designed and the destructive test was carried out by means of static loading. Through simulation and mechanical analysis, the design ...
