Tesla has bought a parcel of land in Shanghai for a factory where it will build its Megapack large-scale batteries, according to Xinhua, the state news agency. The US carmaker will produce 10,000 ...

Tesla's energy storage plant in Shanghai's Lin-gang Special Area breaks ground on May 23. [Photo/chinadaily .cn] Tesla's energy storage plant broke ground in eastern Shanghai's Lin-gang Special Area on May 23, marking a major milestone as this is the first time the US electric carmaker has developed such a facility outside of its home country.

On December 22nd, Tesla announced the signing of a land transfer agreement for its Shanghai Energy Storage Super Factory project. The new factory, with an initial annual output plan of 10,000 commercial energy storage batteries and a storage scale of nearly 40GWh, is set to begin construction in the first quarter of 2024 and commence production in the fourth quarter.

Shanghai luminaries have expressed hopes that Tesla's Megapack energy storage plant in Shanghai, for which the US electric carmaker broke ground at the Lin-gang Special Area on May 23, will serve as an icon for the region's enterprises and help foster an industrial cluster centered around energy storage.
