SolarPanels4U Is a technology integrator in renewable and sustainable power generations systems. It distributes Solar and Wind power generation equipment in the latest technologies. It integrates complete and reliable, small to medium sized, non-grid electrical generations systems that include power generation, power storage and energy supply.

The power stored in a solar generator's battery is in direct current (DC), but most devices and appliances use alternating current (AC). This inverter converts DC to AC. If your solar generator doesn't have a built-in inverter, you will need to purchase one separately, or you can purchase an inverter generator instead.
