Should I add a solar energy system to my roof?

You may be considering the option of adding a solar energy system to your home's roof or finding another way to harness the sun's energy. While there's no one-size-fits-all solar solution, here are some resources that can help you figure out what's best for you. Consider these questions before you go solar. See the Spanish version here.

Do solar panels work with Powerwall?

Solar panels generate energy for you to use in your home. When paired with Powerwall,you can store your excess energy for use whenever you want. As severe weather becomes more common and the grid less reliable,Powerwall can keep your lights on when outages occur. 24/7 Monitoring,Maximum Control
