

# Solar support pole stainless steel

What is a pole mount solar rack?

The module rails are a mill-finish structural aluminum angle. These mounts include stainless steel module mounting hardware as well. Standard top-of-pole mounts are adjustable from 15 degrees to 65 degrees in 10-degree increments. These pole mount solar racks are made to mount on standard sizes of SCH40 steel pipe.

What is the best solar array mounting solution?

Sometimes the best and most adjustable solar array mounting solution is a Top-of-Pole mount. Our lines of Top-of-Pole Mounts are high-quality structures with heavy steel mounting sleeves and elevation pivots. The module rails are a mill-finish structural aluminum angle. These mounts include stainless steel module mounting hardware as well.

Can a solar panel be mounted on a pole?

Systems from 10 Watts to 480 Watts using pole-mount solar panels can easily be mounted on vertical poles ranging from 2" to telephone poles. Many versions are shown below from single module mounting structures (links to below) to multiple module mounting structures on larger poles.

Can MAPPS® solar panels be installed on a single pole?

Multi-Pole Ground Mounts Mounting structures for multiple PV modules on a single row of vertical pipes. There are a wide variety of installation methods for MAPPS® solar power systems. Systems from 10 Watts to 480 Watts using pole-mount solar panels can easily be mounted on vertical poles ranging from 2" to telephone poles.

How many watts can a pole support?

Side of Pole and Top of Pole options that accommodate modules from 10 watts to 300+watts. The Ground/Roof Mount can support solar installations in a wide range of locations. Great for use in off-grid applications and on flat roof structures.

What finishes are available for side of pole mounts?

Side of pole mounts offer the following finishes: standard mill finish, powder coating, or anodized. All mounts include stainless steel hardware. Band clamps, U-bolts, and custom attachment hardware are available for any pole type. Load testing is available for specific applications.
