The Powerwall stores excess energy generated from solar panels or during off-peak hours and makes it available when needed, reducing reliance on the grid and cutting energy costs. With its sleek, compact design and seamless integration, Tesla Powerwall offers a reliable backup during power outages, making it an ideal choice for energy independence.

The 200W bifacial solar panel is designed for home photovoltaic off-grid systems, marine and RV. This bifacial panel captures sunlight from both the front and back to maximize power generation and efficiency. It is durable and high performance, perfect for powering your off-grid lifestyle, whether you are at sea, on the road or in a remote area.
