

Square photovoltaic panel state subsidy scam

Are solar panels a scam?

That is, of course, also a scam. To protect yourself from clean energy scams: Know that "free" or "no cost" solar panel offers are scams. The federal government does not install solar systems in homes for free. If you're considering whether solar energy is right for you, check out the Department of Energy's guide for homeowners and learn more.

How does a solar installation scam work?

How the scam works: People posing as solar installers or utility employees call or come to your home and offer free solar panels through made-up government programs or incentives. Sometimes they also claim their company will cover the cost of installation by providing huge rebates.

Are there any solar scams in Australia?

Most Australians are used to the plethora of scams that pervade their email inboxes and phone messages. Most of them are obvious but some, just like solar scams, can be well disguised as genuine. We have compiled a list of 5 common solar scams to help you make an informed decision. What do I do if I have been scammed? How can I avoid solar scams?

How do I know if a solar company is a scam?

Be wary of solicitors. Always verify the identity and credentials of anyone claiming to represent a solar company. Unscrupulous solar companies may employ aggressive or dishonest sales tactics to close deals quickly, especially if the proposed solar installation isn't in your best interest.

Are 'fake' solar companies a scam?

Beware of any company asking you to make a big deposit before they have completed their installation. This is one of the most common ways 'fake' solar companies have targeted consumers - whereby they take a hefty deposit and then never turn up to carry out the installation. This is common solar scam.

Will the federal solar tax credit be eradicated?

Instead of letting the solar panel company take its cut, explore a wider range of solar panel brands in order to determine what you want for your home. Many solar panel companies will claim to potential customers that the federal solar tax credit will soon be eradicated.
