DN16 Solar flexible tube one piece tubing. Stainless steel flexible solar fluid can be contained in one single insulated length, we provide this in 10-25 meter lengths, and you can then cut this to suit your application. It has integrated solar cable between the two cores for easy fitment of solar thermal probe. Suited to very high DN16 temperatures and can be pressurized to maximize ...

Incredibly durable 2mm thick stainless steel bracket enabling secure and easy installation of photovoltaic panels on a Metrotile roof system. Securely screwed into battens through to rafters, recommended every 600mm.

This wall mount handrail bracket is made of 304 grade stainless steel, has a brushed (satin) finish and is designed to hold 1-1/2" outside diameter round tube. The back plate has three counter sunk holes that can be positioned for horizontal or angled handrail.

Solar panel mounts made of 3mm 304 stainless steel in a 2B natural finish. Base mount foot is slightly inclined to allow for camber of roof. No need to drill or bolt, simply attach with outdoor hybrid adhesive such as CT1. Design allows for horizontal mounting of almost any solar panel size, on almost any narrowboat or widebeam roof.

Solar photovoltaic bracket is a special bracket designed for placing, installing and fixing solar panels in solar photovoltaic power generation systems. The general materials are aluminum alloy, carbon steel and stainless steel. The related products of the solar support system are made of carbon steel and stainless steel. The surface of the carbon steel is hot-dip galvanized and will ...
