

Glennmont Partners from Nuveen ("Glennmont"), one of the world's largest fund managers investing in clean energy, and Exus Renewables ("Exus"), independent renewables asset management and development firm, have agreed to co-develop c.800MW of battery storage projects in southern Italy, with each company co-developing a portfolio of c.400MW of projects.

Energy storage systems play a crucial role in Italy's decarbonisation and energy security. On 21 January 2020, the Ministry of Economic Development published the Integrated National Energy and Climate Plan ("Piano Nazionale Integrato per l'Energia e il Clima" - "PNIEC"), setting targets for energy efficiency, development of renewable sources, and CO₂ emissions ...

Italy, which has always been a pioneer in renewable energy, continues to innovate with BESS (Battery Energy Storage Systems). Enel is leading this revolution with advanced projects both nationally and internationally, thereby contributing to Grid stabilization and decarbonization.

Enel Libra Flexsys was established for the development and management of a major portfolio of energy transition infrastructure in Italy, composed of 23 battery energy storage system (BESS) projects with a total capacity of 1.7GW and 3 Open-Cycle Gas Turbine (OCGT) projects with a total capacity of 0.9GW.

Just before Christmas, The EU Commission approved a EUR17.7 billion (US\$19.5 billion) state aid scheme in Italy to fund the rollout of the 9GW/71GWh of new energy storage that Terna has said the country needs. Energy-Storage.news" publisher Solar Media will host the 9th annual Energy Storage Summit EU in London, 20-21 February 2024. This year ...

In December 2023, the EU greenlit Italy's energy storage program, earmarking a hefty investment of EUR17.7 billion. This initiative is anticipated to facilitate the construction of over 9GW/71GWh of energy storage systems (ESS).

Cubico Sustainable Investments has formed a joint venture (JV) with a local developer in Italy to develop 1GW-plus of battery energy storage system (BESS) projects. London-headquartered independent power producer (IPP) Cubico has entered into a JV with local developer and consultancy Storaltit, with an initial four projects totalling 150MW ...

The transacted vehicle will see through the construction, ownership and operation of a portfolio comprising 23 battery energy storage system (BESS) projects as well as three renovations of open cycle gas turbine (OCGT) plants totalling 0.9GW. The deal is part of Enel's partnership business model outlined in its business plan for 2024-26. Enel has been a first ...

Suspended energy storage projects Italy

Italy's TSO Terna is in the midst of reforming the electricity market to incorporate new energy storage resources onto the grid. Image: Terna. In a big week for the grid-scale energy storage market in Italy, regulators have approved new grid storage-specific auction rules and a chunk of Aura Power's 500MW-plus pipeline of BESS projects.

of battery storage projects for a 2024 commercial operation date (COD). Transmission system operator (TSO) Terna says that some 94GWh of new energy storage will be needed to integrate the country's renewable energy pipeline, although this may include some pumped hydro energy storage (PHES). The 2030 target is around 15GW by

The owner of the project is Trinasolar's International System Business Unit (ISBU), its global project development. The standalone BESS will support grid stability and also do wholesale energy trading. The project has a contract with Italian transmission system operator (TSO) Terna to provide the Fast Reserve ancillary service for 1,000 annual operation hours, ...

Developer Enerside Energy has sold a project combining agrivoltaics (agriPV) and a battery energy storage system (BESS) in Italy to Chint Solar. The project consists of a 360MWp agriPV solar farm and the 40MW/82.5MWh BESS "Palmadula" facility, which Enerside has sold to Chint Solar, a developer and independent power producer (IPP).

The energy capacity can be used to express a significant part of the gravity storage's design parameters: (3) $E = M \cdot g \cdot (H - h_w)$, where E is the energy capacity of the storage system; M is the mass of all weights; g is the acceleration of gravity; H is the height of the storage; h_w is the height of the weight; g is the acceleration of ...

Matteo Corigliani, head of Aurora Energy Research Italy, said official data showed that as of the end of March, Italy had approved more than 2GW of energy storage projects, with another 8GW in the approval process. Aurora Energy Research has a very broad pipeline of energy storage capacity, which is four times what has been approved.

The Generali Group company has signed an agreement to acquire a minority share of Enel Libra Flexsys, which aims to rollout 1.7 GW of battery energy storage projects in Italy. "Revenues are fully contracted for 15 years through capacity agreements with Enel as well as capacity payments from Enel that are backed by Terna, Italy's transmission system ...

Energy Vault Holdings, a developer of sustainable grid-scale energy storage solutions, and Carbosulcis, a coal mining company owned by the Autonomous Region of Sardinia, Italy, plan to develop a 100 MW hybrid gravity energy storage system (GESS) for underground mines, pairing their modular gravity storage and batteries.
