

NTPC, India"s biggest electric power utility with a 76GW generation fleet, has opened a tender for a long-duration energy storage (LDES) flow battery project. NTPC posted a tender document to its site last week (14 June), making an invitation for bids (IFB) to supply, install, commission and integrate a vanadium redox flow battery (VRFB) of ...

The Bulgarian government considers the latest battery storage tender as part of its larger efforts to increase the share of renewable energy generation, especially wind and solar, in the country's energy mix and ensure seamless integration of ...

The six new BESS projects were amongst 1.9GWh of energy storage projects awarded grant funding in a recent tender called PERTE (Spanish strategic projects for the economic recovery and transition, in English) and will receive a total of EUR37.5 million (US\$41 million) in funding towards their deployment.

Scania battery electric truck with roadside charger in Sweden. Image: Dan Boman / Scania . Update 10 February 2022: A Soltech representative responded to an Energy-Storage.news request for some more details on the project. It will use a lithium iron phosphate (LFP) 2MW/2MWh BESS made by Huawei, the representative said.

The Ministry of Mineral Resources and Energy of Mozambique, funded by the German Government through KfW, has announced a tender for solar photovoltaic and battery energy storage projects, aiming to enhance the country"s renewable energy infrastructure. Applications are due by September 13, 2024.

On 21 August 2024, the Bulgarian Ministry of Energy opened a tender procedure for National infrastructure for storage of renewable energy (RESTORE) for granting stand-alone battery energy storage system (BESS) tender funded under the EU's Recovery Resilience Facility (the "Procedure"). The deadline for submitting applications will be 17:00 on 21 November 2024.

Maharashtra State Electricity Distribution Co. Ltd (MSEDCL) has invited proposals to install standalone battery energy storage systems (BESS) with a total capacity of 600 MWh. Projects will be selected via e-bidding and e-reverse auction, with a minimum bid size of 100 MWh. The BESS will be built, owned, and operated by developers and charged by MSEDCL for daily use.

The list of winners in Greece's maiden tender for standalone battery energy storage system (BESS) projects includes seven companies with 12 proposals, Energypress reports.. The awarded projects have secured in full the 400 MW capacity on offer. According to the report, energy group Helleniq Energy, formerly Hellenic Petroleum, has won about 100 ...

Tender for swedish energy storage battery project

The bidders can apply for this tender upto January 20, 2025. This comes at a time when the solar plus energy storage projects are on the rise. The tender said that the bidders would need to develop two blocks of 300 MW of solar project with BESS. These projects will be ground-mounted and grid-connected.

Polish utility PGE Group has launched a tender for the design and construction of a battery storage facility with a minimum capacity of at least 900 MWh. Meanwhile, Ukraine's DTEK has completed the acquisition of a 532 MWh battery storage project in southern Poland.

Isbillen Power Reserve will be the largest battery in the Nordics. The 93.9 MW / 93.9 MWh lithium-ion battery will be located in the county of Västernorrland, approximately ...

Selection of Battery Energy Storage Systems projects for a total capacity of 500 MWh will be carried out through e-bidding followed by e-reverse auction process. The minimum bid size for the Battery Energy Storage Systems tender shall be 140 MWh i.e. 70 MW x 2 hours. The last date for bid submission is January 6, 2023. Bids open on January 10 ...

Scatec has been awarded Preferred Bidder status for 540MW of solar projects with 225MW / 1,140MWh of battery storage through a government tender in South Africa. The Norway-headquartered renewable energy developer and power producer participated in the South African Department of Mineral Resources and Energy''s technology agnostic Risk ...

A battery storage subsidiary of maritime company BW Group has committed to investing in Swedish energy storage developer Ingrid Capacity. Ingrid Capacity said this morning it had secured "around SEK1 billion (US\$96.7 million)" of investment from Singapore-headquartered shipping and maritime player BW Group"s BW Energy Storage Systems (BW ...

The agreement, signed on 28th June 2023, secures Eku Energy exclusivity over 1GW of battery storage projects in Italy. As part of the agreement, Eku Energy is already funding projects with a combined capacity in excess of 100MW in the South of Italy, a region with high levels of renewable penetration and an increasingly congested grid.

A separate solar and storage project Scatec is building in South Africa, awarded to the firm through another procurement. Image: Scatec. Norway-based IPP Scatec has won preferred bidder status for a 103MW/412MWh battery energy storage system (BESS) project in South Africa, part of a 513MW tender.
