

Wind turbine wreath bidding announcement

How many offshore wind farm contracts have been awarded?

A total of nine offshore wind farm contracts have been awarded by the government after last year's auction failed to attract any bidders at all.

What are the auctions for offshore wind farms?

These auctions will be for three sites with a total capacity of 5,500 MW that have been centrally pre-investigated by the Maritime and Hydrographic Agency. Further information about the auction for offshore wind farms can be found at [\(in German\)](#).

Will a 2022 offshore wind auction be enough?

Previous auctions have secured more capacity, hitting a peak of 11 GW in 2022, however, and analysts said Tuesday's result was not enough to meet the country's target of expanding offshore wind capacity to 60 GW by 2030 from around 15 GW now.

When will offshore wind energy auctions start?

The Bundesnetzagentur will launch further auctions for offshore wind energy, apart from the ones announced today, by 1 March 2024. These auctions will be for three sites with a total capacity of 5,500 MW that have been centrally pre-investigated by the Maritime and Hydrographic Agency.

Why did the UK increase the maximum price for offshore wind projects?

This was published under the 2022 to 2024 Sunak Conservative government. The government has increased the maximum price for offshore wind projects in its flagship renewables scheme to further cement the UK as a world leader in clean energy.

Will the upcoming offshore wind auction set a new record?

In its report *EnergyPulse Insights: offshore wind October 2023*, industry body RenewableUK said the upcoming auction this summer could set a new record for additional capacity. Last year's auction was labelled a "disaster" after no new projects submitted bids as the price for energy generated was deemed too low.

The Government of India has invited bids for the development of offshore wind with a total capacity of 4 GW off the coast of Tamil Nadu. The bids invited are for four blocks of 1 GW each on an open access basis, for the development of offshore wind projects off the coast of Tamil Nadu, through international competitive bidding.
