hydropower was 94% of the total energy available in Zambia and the national annual energy demand has been
jsd.ccsenet Journal of Sustainable Development Vol. 13, No. 1; 2020 70

Onsite Energy Zambia offers a wide variety of efficient and environmentally-safe rigid tankers, mini tankers and tanker trailers for hire. This is a great way to provide immediate access to fuel in remote areas, for off-site projects or in any situation where long-term fuel storage might not be practical or necessary.

Zambia: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO₂ - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.
